Dear CFA Board Member:

I'd like to ask you to support our CFA Siamese at the February board meeting by voting against the proposal to allow the showing of a pointed oriental division. I greatly fear that this encroachment is just another step towards creating one large division of "foreign" type cats in which the Siamese will be swallowed and become just one more color pattern.

The Siamese breed is a foundation breed of CFA and has contributed greatly to both CFA's rich history and to its bottom line. I hope that you agree with me that a pointed Oriental color class will be detrimental to the Siamese breed and that you will not support it.

Sincerely,

Debbi Stevenson  
Shimasu Siamese
